

Digital Mental Health for Sleep Problems

WHAT IS A SLEEP DISORDER?

It is recommended that adults get between 7 to 9 hours sleep per night, but many people regularly fall short of this. Prolonged and consistent difficulties falling asleep, waking up early and not being able to get back to sleep, or waking up feeling unrefreshed can be a sign of a sleep problem called insomnia.

Alternately, some people get too much sleep, nap regularly and yet continue to experience excessive daytime sleepiness. This is known as hypersomnia.

Other sleep disorders involve abnormal movements, behaviours, emotions, perceptions and/or dreams that occur during sleep or when falling asleep or waking up. Examples include sleepwalking, acting out dreams, discomfort in the legs alleviated by movement, or abruptly awakening from sleep with a sense of intense fear.

Sleep problems can be a sign of a physical illness.

It is important to discuss any sleep concerns with your GP so that the cause can be properly identified.

WHAT ARE THE SYMPTOMS OF A SLEEP DISORDER?

Physical

- Difficulty falling asleep (longer than 30 minutes)
- Waking up in the middle of the night
- Waking up early and being unable to go back to sleep
- Excessive sleepiness during the day
- Sleeping too much
- Lack of energy/fatigue
- Muscle tension associated with going to sleep
- Restless feeling in legs
- Sleepwalking or sleep talking
- Sleep terrors - waking abruptly with intense fear, often inconsolable
- Feeling like you are falling when you drift off to sleep

Psychological

- Racing thoughts before bed
- Feeling wound up or anxious before bed or about sleeping
- Irritability/frustration
- Poor concentration
- Preoccupation with getting enough sleep

Behavioural

- Monitoring for signs of sleepiness
- Taking a book/phone/laptop to bed in case of lack of sleep
- Checking the clock

For tips managing other conditions affecting sleep quality such as anxiety, depression, chronic pain, smoking or substance use, please see our other factsheets.

Digital Mental Health for Sleep Problems

Digital Mental Health Gateway

Head to Health
